

# SYNAESTHESIA AND THE SENSES

*A Fabelist Group Show*

**syn·es·the·sia**

In **Synaesthesia and The Senses**, nine emerging and established artists, magnify sensory responses to the world around them in an expansive variety of media. This **Fabelist** Group Show takes its theme from this Ancient Greek word, whose roots mean together (syn) and sensation (aesthesia).

Between 22<sup>nd</sup> August and 1<sup>st</sup> September Unit 3 Projects will be transformed into an immersive labyrinth of painting, text, music and sculpture, guiding the viewer through different sensory states.

**Fabelist** is an interdisciplinary platform for contemporary visual art, writing, performance and debate, founded by its director Francesca Goodwin in 2011. Projects generated by the collective have been featured at The Serpentine Gallery Project Space, Rivington Place Gallery, Grays Antiques, The Arch Gallery, The Other Art Fair and The Box Park.

**Fabelist** embraces diversity of practice as a point of connection, making collaboration and connectivity central to its ethos. This diversity is reflected in **Synaesthesia and The Senses**, in which artists work both alone and in various constellations.

Nevertheless each piece addresses the ways we all make our mark on the landscape of our daily lives.
